DESCRIPTORS: *Paleontology, *Stratigraphy, Geologic age determination, Geology.

It is proposed that the Paleozoic era be divided not into three but two parts, and that each of these parts be regarded as an independent era. The advisability of such a subdivision of the Paleozoic era is supported with several reasons.

(Earth Sciences--Geology, TT, v. 10, no. 12)

SEARCH FOR A THEORY OF THE POSITIVE COLUMN WITH MOVING STRIATIONS. [1963] 9p. 7 refs.
Order from SLA $1.10 63-14460

Trans. of Physica (Netherlands) 1934, v. 1, p. 273-280.

DESCRIPTORS: *Gas discharges, *Glow discharges, Theory, Equations, Electrons, Diffusion, *Discharge tubes, Low pressure research, *Helium group gases, Neon, *Plasma physics.

The equations of the homogeneous positive column in noble gases are enlarged, so that they can be used for the positive column with moving striations. An approximate solution of these equations is given, which resembles the moving striations. The order of magnitude of the distance of the striations and of the velocity in Neon is correctly given by the calculation. (Author)
